VINIFICATION

Manual harvest. Selection of differentiated plots according to their quality by their yield performance and their expression. They are vinified separately, to obtain different styles and components and thus achieve better complexity. Cold maceration for 3 to 5 days. Alcoholic fermentation carried out with indigenous yeasts at temperatures between 25-28 ° C. Post fermentation maceration during variable time according to tasting. Total maceration approximately 25 to 30 days according to the year.

AGEING

10 -12 months in mostly French oak barrels and a small proportion of American.
